

# Construction Progress - 2<sup>nd</sup> November

Looking South. This shows the car park and to the right of frame is the start of the administration block

Looking towards Eggersdorf Road, showing the outline for our prep buildings.

From the middle of the block looking towards Eggersdorf Road. This is the furthest building from the road, and will be two storey, overlooking the oval and park, hence the deeper footings.

It appears the construction has the 'thumbs up' so far....
